

FOR CONSULTANCIES AND STAFFING FIRMS DELIVERING INTO EUROPE

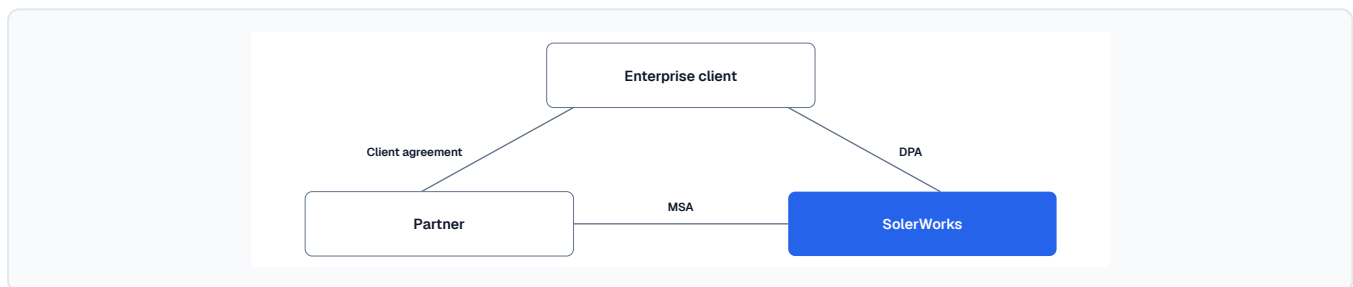

Sign European enterprise clients without opening a foreign subsidiary

When a European client's counsel refuses a DPA with a US entity, the deal stalls. SolerWorks supplies the in-country contracting entity and processor of record, so the paper clears. You keep technical direction and delivery.

WHAT YOU GET

01 Local corporate entity rail Deploy through an active Brazilian entity without incorporating abroad.	02 Direct enterprise DPA Turnkey GDPR Art. 28 processor presence for European enterprise clearance.	03 Client-contained architecture Zero local data storage. Delivery isolated to the client's cloud or VDI.	04 Direct-remittance flow Transparent payment routing with clean tax and margin isolation.

HOW THE STRUCTURE WORKS

THREE STEPS TO LIVE DELIVERY

- 01 Scope and dossier review** Day 1-2
 SolerWorks audits the client DPA template, team seat roster and access architecture.
- 02 Contract execution** Day 3-4
 You execute the SolerWorks MSA. SolerWorks signs the enterprise DPA.
- 03 Pod activation** Day 5
 Personnel execute Art. 29 undertakings and begin work inside client tenancies.

BUILT FOR

- Established software engineering consultancies and staff augmentation firms
- \$2M-\$30M annual revenue with 15-200 distributed LATAM technical contractors
- A European client's legal or security team has asked for an in-country processor
- Not for individual freelancers, talent brokers or unvetted marketplace models

RECURRING SERVICE FEE 5%-8% On net client billings. Tiered by active pod seat count.	ONE-TIME SETUP \$2,500 Per client track. DPA alignment, B2B framework, vendor security pack.	TO SIGNATURE 5 business days From diligence submission to countersigned DPA.
